MILES SAILS AT LAST.

Landing Point In Porto Rico Is a Secret.

MAY WAIT FOR FULL FORCE.

Powerful Convoy Sent Along With Transports.

THEY HAVE ALL BEEN TESTED.

It Is Thought the Expedition May Land Next Sunday, the Day of the Week on Which All Important Events of the War Have Transpired.

Washington, July 22.—General Miles, leading the military expedition against Porto Rico, started at 3 o'clock Thursday afternoon from Siboney, Cuba, for the point on the island of Porto Rico where it is the intention that the troops shall land.

It is expected that General Miles will wait at some appointed spot on the route for the expeditions from Tampa, Newport News and New York to fall into his column.

These expeditions are already under way, some of them with two or three days' start of General Miles, so that the delay should not be very great.

After all the difficulty about the naval convoy, and the first conclusion of the naval authorities that none was necessary, the strength of that now furnished is surprising.

There is a battleship of the first-class, an effective protected cruiser, a speedy and well armed gunboat and four auxiliary vessels of the navy which have already proved by their performance in Cuban waters that they are fully equal to the ordinary gunboat in offensive powers.

Secretary Alger believes that General Miles will arrive at his destination Sunday morning with 3,000 men under his immediate command. A day later will come 4,000 men on transports and the day following that 3,500 more.

Whether the landing will be deferred until the arrival of this entire force or whether General Miles will take the initiative and hoist the flag himself on Porto Rican soil is left to the discretion of that officer.

It is the department's determination that he shall not lack for troops or equipment and this first expedition may be followed by several others as fast as the troops can be gotten ready, until word comes from the general that he needs no more.

General Swan's brigade, comprising the Fifth, the Eleventh and Nineteenth United States infantry, a splendid body of trained soldiers, sailed from Tampa to join General Miles, and the Porto Rican expedition is not an uncertain success it will not be for lack of position in the war department to supply every requisite.

NO QUESTION ABOUT DEWEY.

That Admiral Dewey has the situation in the Philippines well in hand is exhibited by his telegrams, the latest of which was received Thursday, which, without boasting, simply reports like the others that have gone before, that affairs are quiet and satisfactory.

The state department has come to have fully as great a sense of appreciation of Dewey's diplomatic ability as the country has for his naval skill and courage and the best evidence of this is that it has not found it necessary up to this point to interfere.

The navy department has now discovered that the big double turreted monitor Monterey will not arrive at Cavite until August 5, that being the advice received at the department from the captain of the vessel when she touched at Honolulu.

The admiral's announcement of the arrival of the second detachment of United States troops at Cavite has given great comfort to the war department which was not altogether at ease concerning the first small expedition lying between Spaniards and the insurgents and without being able to depend very largely upon either.

With these added troops it will now be possible to demand the surrender of Manilla, but it is gathered here that our purpose is to defer such a movement until all the United States troops have arrived in Manilla bay unless the attitude of the insurgents forces action on the part of the American commanders, military and naval.

SPAIN WILL BE VISITED.

Secretary Long said that the preparations for dispatching the Watson squadron to European waters were going on uninterruptedly, but that the departure necessarily would await the movement of the warships at Porto Rico, the Massachusetts and other

ships being required for convoying the troops to Porto Rico.

Neither the state nor navy department looks for any embarrassment from European quarters outside of Spain as a result of the naval movement against the peninsula. During the day orders were sent to Norfolk to hurry forward work on the colliers which are to accompany the Watson expedition.

Had the army transports been able to go to Porto Rico without a naval convoy, the Watson squadron could have got away within the next few days, as the war board had wished to close all preliminaries by next Saturday. But as the battleship Massachusetts, cruisers Columbia, Cincinnati, Dixie and Yale, together with several lesser craft, were considered necessary as a patrol for the Miles' expedition, this changes the plans slightly.

The Dixie is almost certain to be in the Watson squadron, and the Massachusetts is likely to be. Secretary Long expressly says, however, that the delay of the Watson squadron is incident to convoying the troops to Porto Rico and does not mean that the start will be postponed until the Porto Rico operations are concluded.

The report from Barcelona that the people were so fearful of the approach of the Watson squadron that they were urging France to establish a protectorate over all the Catalonia district, including Barcelona, was dismissed by officials and by members of the diplomatic corps best informed on the affairs of France, as fantastic speculation, quite unwarranted by any actual movement now on foot. It is said to be thoroughly well established that France is not lending a helping hand to Spain in any of her afflictions.

An Important Report.

Washington, July 22.—The navy department has obtained a very striking conception of the tremendous power of a shell bursting within the inclosure of a battleship, from a report which has just been received at the department from Captain Taylor of the Indiana. Aside from the actual bursting energy of the shell described by Captain Taylor, it is perceived from his report that great danger was experienced from fire, owing to the fact that the Indiana is not, like some of the battleships of later construction, fitted with fireproof wood throughout. It is safe to assume that this report, taken in connection with the destruction of the Spanish vessels in large part by fire off Santiago, will lead the navy department to redouble instead of relax its efforts to protect the American warships against fire by all known scientific means.

Canteens Closed.

Chickamauga, Ga., July 22.—Persistent petitioning and letter writing by wives and mothers of the soldiers has had the effect of closing up three of the regimental canteens at Camp Thomas. It is said that several others are scheduled to go in the near future. Colonel Hartsuff, the chief surgeon at the camp, is not a friend of the canteen, and is doing all in his power to discourage the use by the men of alcoholic beverages. The women of the W. C. T. U. have made an appeal to General Brooke, and have gained his sympathy, but he is powerless, for the reason they are provided for in the army regulations.

Garcia Disgusted.

New York, July 22.—A Santiago special says that General Garcia has written a letter to General Shafter declaring that he is disgusted at his treatment at the hands of the Americans, and will therefore withdraw his forces to the hills. Among the things of which General Garcia complains is the failure of the American commander to officially notify him of the surrender of the Spanish force under General Toral.

Duffield to Be Sent Home.

Washington, July 22.—No official reports were obtainable at the war department as to the yellow fever conditions among the troops at Santiago. The officials are resting easy, however, under the assurance conveyed by Dr. Greenleaf that the disease is mild in type. Instructions have been sent to General Shafter to have Brigadier General Duffield sent north to the United States.

Postal Order Modified.

Washington, July 22.—Postmaster General Emory Smith issued the following order: "In conformity with the order of the president of this date, my order No. 161 of the 26th of April last prohibiting the dispatch of any mail matter to Spain or her dependencies is modified so far as to permit postal communication between the United States and Santiago, Cuba."

Personnel of the Convoy.

Washington, July 22.—The war department posted the following:

"Playa del Este, Cuba, July 21.—Massachusetts, Dixie, Gloucester, Cin-

cinnati, Leyden and Wasp go with Yale and Columbia. We expect to sail at 3 o'clock.

MILES."

WHALERS REACHED.

Most of the Vessels Can Be Saved From Destruction.

San Francisco, July 22.—It is reported that Senator Perkins has received a telegram from Secretary of War Alger stating that the Seventh regiment of California volunteers will sail for Manilla next week on the transport Scandia.

Damage Was Caused.

Madrid, July 22.—A dispatch from Havana says that the American warships before Manzanillo separated Wednesday, five proceeding to a point off Cape Cruz, where they bombarded a signal tower, causing damage.

Not Yellow Fever.

Washington, July 22.—Health officer at New York reports that the suspicious cases of sickness on the Seneca which arrived at quarantine with a large number of men from Shafter's army are not yellow fever.

Sampson's Report Coming.

Washington, July 22.—The anxiously awaited report of Admiral Sampson on the great sea fight with Cervera's squadron is on the way here by the cruiser St. Paul, under Captain Sigsbee.

Colonel Bryan Speaks.

Atlanta, Ga., July 22.—Colonel W. J. Bryan, at the head of the Third Nebraska volunteers, reached Atlanta at noon. Colonel Bryan was met at the train by several personal friends, who started to escort him to the Kimball.

By the time the party reached the doors of the hotel, the crowd became so dense that progress was impossible. Colonel Bryan graciously responded to the cheers and calls for a speech, and mounting a stone hitching block, said: "I am glad to be with you again. I am greatly pleased that my regiment will have an opportunity of seeing the confederate veterans, and know that in our present struggle they will have an opportunity to fight with some of these old soldiers and their sons.

Maria Teresa to Be Raised.

Playa del Este, July 20, via Washington, July 22.—Progress in wrecking the Maria Teresa very satisfactory. The company thinks the ship will probably be raised by Sunday next. No information regarding the other ships. Board of officers examining the Reina Mercedes today. She will probably also be raised. Lieutenant Commander Pillsbury, commanding the Vesuvius, has been supervising the wrecking of these vessels on the part of the navy.

SAMPSON.

The Bermuda Released.

Kingston, Jamaica, July 22.—The steamer Bermuda, a filibuster seized by the British government 15 months ago, forfeited and advertised for sale, was freed by order of the government on the payment of all the libels filed against her. The American flag will be hoisted on the Bermuda. A Port Antonio crew has been cabled for and the vessel will leave for New York next week.

Movement of the Buffalo.

Washington, July 22.—The Buffalo, late the Nictheroy, purchased from the Brazilian government, sailed from Newport News in company with the Rain Bow for New York. There the Buffalo is to be turned into an efficient cruiser while the Rain Bow will be made a refrigerating ship.

Everything Is Now Ready.

Washington, July 22.—The contract drawn by Attorney General Griggs for conveying Spanish prisoners back home was formerly executed. The company through its agent gave bond in the sum of \$250,000 for the faithful performance of the contract.

Sagasta Offers to Resign.

London, July 22.—According to a special dispatch from Madrid Señor Sagasta, the premier, has again offered to resign, and has been counseled by the Queen regent to advise with other political leaders relative to his future course.

All Well on Board.

Cavite, July 17, via Hongkong, July 22.—Situation unchanged. Second army detachment arrived today. All well on board. The health of the squadron continues good. No sickness whatever.

Struck by a Cyclone.

Boston, July 22.—Congressman William H. Fleming of Augusta, Ga., who was operated on at Massachusetts hospital for appendicitis, was resting comfortably after a fairly good night, and there is strong hope of his recovery. Mr. Fleming came to Boston Tuesday to participate in the congressional postal inquiry now in progress here, when he fell ill.

Personnel of the Convoy.

Washington, July 22.—The war department posted the following:

NEWS FROM MANILLA.

Second American Expedition Has Arrived.

FOUR MEN DIED ON THE WAY

Otherwise the Troops Are in Excellent Condition.

BOMBARDMENT OCCURS AT ONCE

News of the Annihilation of Admiral Cervera's Fleet Has Caused the Spaniards to Lose Hope and It Is Thought They Will Surrender.

Hongkong, July 22.—The German steamer Wutten at this port from Cavite reports that the United States transport China with American reinforcements for Admiral Dewey arrived at Cavite on Saturday last.

The Wutten also brought the news that no advance had been made by the American forces. They were awaiting the coming of General Merritt, who was expected to reach the place within ten days.

Letters received here from Cavite, dated July 18, say that the American transports have hoisted the American flag on an island supposed to be Watts island.

General Aguinaldo has organized the Philippine cabinet at Bacoor, with the following personnel: President of the council, General Aguinaldo; secretary of war, Baldimiro Aguinaldo, nephew of General Aguinaldo; secretary of the interior, Leandre Ibarra; secretary of state, Mariano Trias.

A Cavite letter dated July 17 says that General Anderson has quartered the California battalion at Paranaque, several miles from Manilla. The blockade is effective and mails are not allowed to enter Manilla except by warships.

A Manilla letter dated July 18 says that unless the Spaniards surrender in the meantime, Rear Admiral Dewey will bombard the fortifications of Manilla by the end of this week, provided the troops are ready to take possession immediately.

The First regiment is already in the field at Paranaque, two miles from Manilla.

The Spaniards are reported to have been buoyed up by the hope that the Cadiz fleet, due here on the 16th, would arrive soon, but the news of the destruction of Admiral Cervera's squadron, brought by the Japanese cruiser Nanaiwa, may lead them to surrender.

The insurgents are constantly harassing the Spaniards on both sides of the city, but they are checked by the big guns of the Malate and Santa Misa forts.

The second detachment of the American expeditionary force arrived in excellent condition, though four died on the voyage.

A Manilla letter dated July 17 says a Spanish steamer, the Vosol, having on board a native crew from the Visayas islands, southerners, is now in the hands of the insurgents.

The crew revolted and reached Tayabao in the southern part of the island of Luzon, but there they quarreled with Tagalon insurgents and returned to Iloilo, which is looked upon as indicating that the Visayans are uniting to join the Talagans.

In any case it is considered certain that the Philippine islands will never be amalgamated and that they will never return to Spanish rule. Therefore the only alternative in the opinion of the best informed people here is foreign rule—American or British.

News Received at Manilla.

Manilla, July 22.—The news of the destruction of Admiral Cervera's fleet at Santiago de Cuba was received at Manilla July 17 and created consternation among the Spaniards.

Queen Regent's Birthday.

Madrid, July 22.—Thursday was the queen's birthday (she was born July 21, 1858), but, "owing to the nation's circumstances," the usual official receptions and banquets were suppressed. The only ceremony was a private mass celebrated in the chapel of the royal palace. The royal family and the court attended this service.

Over Seven Thousand Left.

San Francisco, July 22.—After the troops going to Manilla on the Rio de Janeiro embark on that vessel on Friday, there will remain at Camp Merritt 223 officers and 7,918 enlisted men.

Treasury Statement.

Washington, July 22.—The statement of the condition of the treasury shows: Available cash balance, \$256,322,336; gold reserve, \$187,208,242.

For Kentucky—Fair, except showers in western portion; warmer in western portions; northerly winds, becoming southerly.

The Republicans of the Ninth district have chosen "Pugh and defeat."

CINCINNATI now has 711 factories, in which are employed 30,000 males and 10,000 females. These factories represent, in invested capital, \$76,000,000.

BEFORE Spain starts out another fleet of war vessels she ought to secure some trained gunners. It was demonstrated at Manila and Santiago that the men behind her guns were no good.

Most of those Cubans are a tough proposition, and it will take the United States a long time and cost her a big sum to educate them up to that point where they will be capable of free government.

THE city ought to purchase the Mayville fair ground and convert it into a park. It's about the only spot hereabouts suitable for such a purpose. It is easy of access, and could be made a most attractive place in a few years.

UNCLE Sam has practically cleaned out Spain's navy, captured 25,000 of her soldiers and sailors and will soon have possession of her most important islands. The Spanish rulers ought to have their eyes open by this time, but they are too proud to give up. Worse things are in store for them. Poor old Spain!

THE Democratic politicians of this district are busy searching for a man who can beat Sam Pugh. They will need one of Admiral Dewey's search-lights to find him.—Public Ledger.

Well, a change seems to have come over Br'er Davis' dreams. Only a week or so ago he stated emphatically that Pugh could not be re-elected.

SPAIN'S outrageous and tyrannical government of Cuba is almost wholly responsible for the savage condition found to exist among the people of the island. A few years of good government bringing prosperity and happiness to the people will go far towards solving the problem now confronting Uncle Sam.

PORSCMOUTH people the past week purchased \$50,000 worth of unimproved lots sold in one of the additions to that city to aid in the erection of new buildings for the Burgess steel and iron plant. The old buildings were destroyed by fire and the owners of the plant were offered inducements to take it elsewhere, but the people of Portsmouth know a good thing and by their prompt action will keep this big enterprise in their own midst. Their example could well be followed elsewhere.

THE kind treatment accorded Admiral Cervera, General Toral and their men by the United States forces has opened the eyes of poor old Spain, and should go far towards restoring peace between the two countries. "No words of gratification could half express the real appreciation felt by my officers and myself," says the Admiral. "I see that America's big heart does not harden against an enemy. Nobody can forget the generous care afforded our distressed men after the discomfiture of our fleet."

WILLIAM C. WHITNEY is the man who made our navy. But one single vessel—the Boston—which has appeared in the present war to any advantage was built previous to the time Whitney began the new navy. It was his idea, his work, his foresight which gave to the United States the navy which has brought glory to the flag and honor to the great American people.—Exchange.

Mr. Whitney was President Cleveland's Secretary of the Navy and the country is indebted largely to a Democratic administration for the navy that has brought such glory to the Nation by its signal victories.

THE State Board of Election Commissioners at the meeting in Louisville this week adjourned without action, to meet in Frankfort ten days hence. The Republicans of all the counties have made recommendations for their representatives on the county boards, but in many counties the Democrats have not acted. Their failure to act caused the delay in naming the county boards. It is a matter that should be attended to promptly by all County Committees. The Mason County Committee has referred the matter to Hon. Chas B. Poyntz.

KEHOE THE MAN.

Splendidly Equipped To Lead His Party in the Congressional Race—Comments of the Press.

Dover News: "After urgent and repeated solicitation on the part of his friends, Hon. James N. Kehoe, of Mason County, has consented to make the race for Congress in this district, and his official announcement appears in this issue of The News. To those who know 'Jim Kehoe,' no word of commendation is necessary. His reputation as a lawyer, as a public servant, as a private citizen and as a staunch friend and unwavering Democrat, stands without blot or blemish. His ability as a public speaker and ready debater, as a true exponent of true Democracy, is known and recognized throughout the district. He is the soul of honor, personally and publicly, and can be depended upon to know and do the right thing for the masses at all times, and carry out every pledge he makes to the people."

Bracken Chronicle: "By authority we announce Hon. J. N. Kehoe, of Mason County, as a candidate for the Democratic nomination for Congress from this, the Ninth Congressional district. Mr. Kehoe is well known to the people of Bracken County and the district. He is one of the best speakers in the district, well posted on the political questions of the day, and should he receive the nomination, he will make a gallant fight to carry the banner of his party to victory. Mr. Kehoe is eminently a self-made man—a man of the people, and will have the united support of the people of Mason, his native county, having the confidence of all business men of the county, and will get the support of many independent voters."

Carlisle Mercury: "By authority we announce Hon. James N. Kehoe, of Mason, as a candidate for Congress from this district, subject to the action of the Cynthians convention. Mr. Kehoe is one of the best qualified Democrats in this district, and if the convention sees proper to place its banner in his hands will make a lively canvas. Without disparagement to any of the other candidates we desire to say that Mr. Kehoe is one of the best stump speakers in the State, and is an organizer of no mean reputation. He is strongly backed by his county people, who are unstinted in their expressions of approval of him. He has the confidence of the business men of his city, and would secure the support of many independent voters."

IMPORTANT RULING

Rendered By Judge Durelle in a Case From Louisville Affecting Corporations.

LOUISVILLE, KY., July 18.—Judge Durelle, of the Court of Appeals, rendered an opinion to-day which is of the greatest interest to Kentucky incorporations.

The court holds, in the case of John L. Dodd against Charles Gibson and others, that cumulative system of voting for Directors of incorporations formed before the new Constitution became effective is proper. Mr. Dodd, it will be remembered, was elected a Director in the Louisville Bridge Company March 7th, 1898. He was elected by the minority stockholders, who voted in the cumulative manner. Mr. James B. Speed was the choice of the majority stockholders. Four other Directors were chosen by the majority stockholders.

Mr. Dodd was refused admission at the first meeting of the new stockholders, and appealed to the court for an injunction to prevent the other directors from excluding him from the meetings. The case falling to the law and equity division, Judge Toney granted the injunction. An appeal was taken, with the above result.

The majority of the stock in the company is owned by the Pennsylvania Railroad Company.

Consumption Positively Cured.

Mr. R. B. Greeve, merchant, of Chilhowie, Va., certifies that he had consumption, was given up to die, sought all medical treatment that money could procure, tried all cough remedies he could hear of, but no good relief; spent many nights sitting up in a chair; was induced to try Dr. King's New Discovery, and was cured by use of two bottles. For past three years has been attending to business, and says Dr. King's New Discovery is the grandest remedy ever made, as it has done so much for him and also for others in his community. Dr. King's New Discovery is guaranteed for coughs, colds and consumption. It don't fail. Trial bottles free at J. J. Wood & Son's drug store.

SCHEY CHEERS

The Men Behind the Guns For the Santiago Victory.

[New York World.]

A message of congratulation to Commodore Schley for his victory over Cervera was signalled to him from Sampson's flagship.

The men on the Brooklyn, Indiana and other ships went mad with enthusiasm for their commander and cheered themselves hoarse in his honor.

Then up spoke the gallant gentleman himself:

"Thank you, boys, but I didn't do it. You are the boys who did it. Let the officers cheer the crew."

And the officers did so with a will. And when that was over Schley called out again: "To the men behind the guns!" and the officers again paid tribute to the jackies with all of voice that they could command.

Now, with this spirit animating officers and men there is not the slightest doubt that the fleet will do deeds worthy of Hull and Decatur and Farragut whenever and wherever they meet the enemy.

CARRY STAMPS

In the Back of Your Watch Case is the Best Way.

[New York Sun.]

"Business men have various ways of carrying their postage stamps," said the stamp clerk the other morning, while sitting in his chair at the stamp window in the general postoffice. "A good many men who post their letters here always have one or more stamps about them. Some of them carry their stamps in stamp cases, but the economical man carries his stamps under the band of his hat or in his pockets."

The other day a young man called for 'five twos,' and, putting one on a letter which he had to mail, he took out his watch, and, opening the back of it, slipped the remaining stamps into the case. They don't stick to the cover, and that is about the best way one can carry stamps, if he has a watch."

THE FOURTH REGIMENT.

It Will Become a Part of the Volunteer Army Next Monday—Sunday's Excursion.

The Lexington Leader says: "Monday is the day on which Governor Bradley will present the commissions to the officers of the regiment and then the Fourth Kentucky Infantry will be a part of the volunteer army and ready to receive the orders of the Adjutant General of the United States army. The short time in which Col. Colson has gotten this body of 1,300 men together and had them mustered into the army is little short of wonderful. It is barely a month since the first recruits began arriving and yet in spite of the poor facilities for transportation, no nucleus on which to build, this regiment has been organized and is now in a fairly good state of discipline."

"The man on whom has centered the burden of the work of raising the Fourth is its commander—Col. David G. Colson. In the first place, it was through his influence that Kentucky was allowed a regiment instead of two battalions under the second call. Then he assumed the work of getting the men together. To his home people he gave the preference, and it is from Eastern Kentucky that the men have come. Under his hand the organization has progressed rapidly and smoothly and now he has the finest body of men that has left Kentucky. They will go from here, not as did the others, but with all clothing and equipments. The last step to be taken in which the Fourth Regiment will be made a part of the volunteer army will take place Monday, when Maj. Ballance will verify the company muster rolls and muster the regiment in as a whole. On the same day Governor Bradley will present the commissions."

The Fourth Regiment will likely be ordered South or to Camp Alger as soon as it is mustered into service, and Sunday's excursion to Lexington will probably afford the last opportunity of visiting the boys at Camp Corbin. The L. and N. offers the low rate of \$1 for the round trip from Maysville, and it is expected that a large crowd will go up to witness the presentation of the flag to Company B.

Fremont Park.

The best balloon ascension of the year was given last night. The banks were crowded with our citizens, the cheering enthusiastic and deserved. High up the aerialist went, acting the while and doing deeds daring to look upon.

Come out to-night and you will see something.

The change of program on the stage certainly has caught, for a better pleased audience never sat through a performance. You need no new faces as long as these people can change their acts and sayings; they are versatile, inimitable, and as good a crowd of vaudeville stars as ever shone. Come out to-night and see them. Ten cents is all it costs at Fremont's.

HANDSOME INCREASE

In the C. and O.'s Business at This Point the Past Year—The Figures.

For the fiscal year ending June 30th, the C. and O.'s business at this point shows a handsome increase as compared with the previous year.

The company's business here the past year reached close to the \$100,000 mark, the exact figures being \$97,753.61.

The increase over the preceding year amounts to \$17,541.86.

This is a handsome showing, and speaks well for the company's courteous and accommodating agent at this place, Mr. W. W. Wicoff.

A
Continuation
of Our
\$7.65 Suit
Sale.

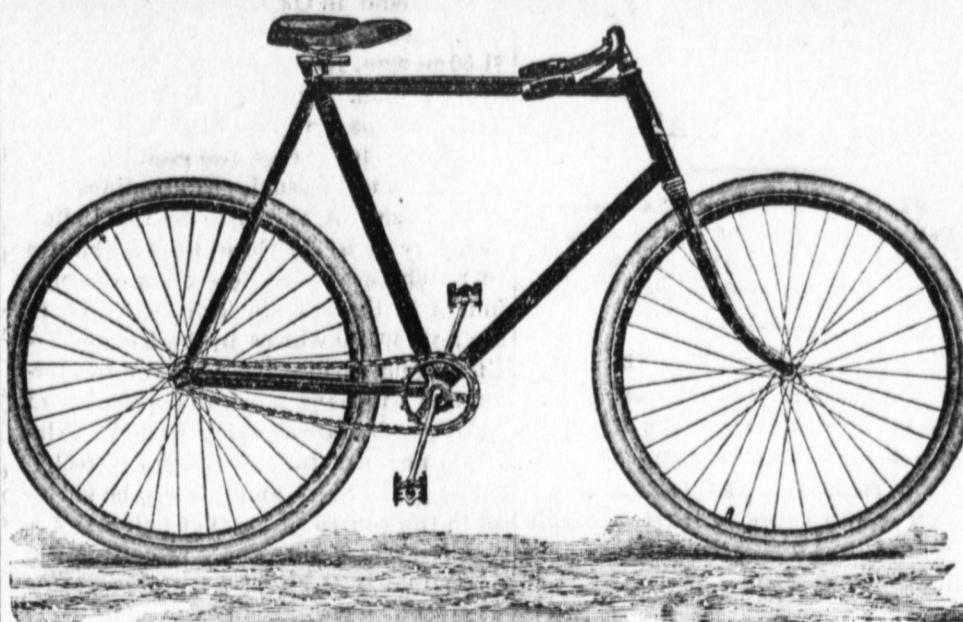

We will continue to sell \$10, \$12 and \$15 Suits for \$7.65 during this entire month. There are two reasons for this. One is that we find we have many more good Suits to put in this sale than we thought we had. The other reason is that our many country patrons are in the midst of the heaviest work of the year and did not yet have an opportunity to avail themselves of these splendid bargains, hence the sale continues during the month.

Don't
Miss the
Opportunity

of buying for \$7.65 a Suit of Clothes that would cost you from \$12 to \$15 elsewhere, and at these prices you would not pay too much for them. They are worth it. Respectfully,

Hechingher & Co.

COMPANY B'S COLORS.

The Handsome Flag Received Last Night and is Now on Exhibition at the Postoffice Drugstore.

The handsome flag to be presented to Company B of the Fourth Kentucky Regiment, by the people of Maysville and Mason County, was received last night, and has been placed on exhibition in the show window at Ray's Postoffice Drugstore.

The flag is four feet four inches in width, and five feet six inches in length, and is made of heavy blue silk, with gold fringe. In the center appears the Kentucky coat of arms, and above this in gold letters, the following:

"COM. B.
FOURTH UNITED STATES INFANTRY,
U. S. A."

Beneath the coat of arms is inscribed the following:

"MAYSVILLE, KY.
Presented by the Citizens of Mason Co., KY."

The flag presents a very handsome appearance and the boys are certain to feel very proud of it. As already announced, it will be presented to Company B next Sunday at Camp Corbin. Maysville and Mason County should send a big crowd up to attend the presentation ceremonies.

Electric Park.

It costs but 10 cents to visit this popular amusement place and when you go you get your money's worth ten times over. You see a really first-class vaudeville performance. The cosy auditorium was crowded to its utmost last night and the new opening farce, "The Irish Detective," met with the audience's approval, by the hearty laughter accorded. Parkinson and Roth are scoring big in their clever conceit, "A Crazy Pair," while the Eldons, in their comedy novelty, "Courtship in a Chinese Laundry" and their shadow pictures are pleasing as ever. Rastus is singing the latest coon songs as only he can. Go out to-night.

AN IMPORTANT FACTOR

Of the Knights of Pythias
Encampment

TO BE HELD IN INDIANAPOLIS

Will Be the Meeting of the Imperial Palace, Knights of Khorassan, Which Is Not a Part of the Knights of Pythias.

Indianapolis, July 22.—The Dramatic Order Knights of Khorassan will take a prominent part during the week of the biennial encampment of the uniform rank and the biennial convention of the supreme lodge, Knights of Pythias, to be held in this city next month.

The encampment opens on Monday, August 22, and on the same day will begin the session of the Imperial Palace, Knights of Khorassan. The order is not a higher degree or a branch or side rank of the Knights of Pythias but it is requisite for membership that the applicant be a member of the Knights of Pythias.

It is intended as a means of cultivating the social side of life and of bringing Pythians in a closer relationship, being to some extent similar to the Mystic Shrine in Masonry.

The Yakoot Temple, with headquarters in this city, was organized April 16, 1897, and now has about 300 members. It embraces all the territory of about 50 counties of the state and under the laws of the order Knights living anywhere in this territory can belong only to Yakoot temple.

The sessions of the Imperial Palace, or highest tribunal of the order, will continue through three days. All votaries may attend the sessions but only the regularly elected representatives may vote and take part in the proceedings. During each night the temple will confer the secret work on candidates.

For this purpose it is the intention to obtain the use of Tomlinson hall if possible. Teams from Detroit, Goshen, Chicago, Evansville, Battle Creek and probably one or two others will be here to aid in this work.

By a special dispensation granted through S. E. Earp, imperial nawab, by Colonel John A. Hinsey of Chicago, imperial prince, authority is granted to confer this secret work upon all who may go in with classes at the original price charged to charter members. Yakoot Temple is also authorized to confer the degree upon all comers who are eligible regardless of residence.

On the night of Thursday, August 25, there will be a spectacular street parade in which all the 3,000 or more members of the order (Arabs they are called) will participate.

They will wear the costly and elaborate silk and plush gowns worn in the temple. This will likely close the part of the Knights of Khorassan in the week's doings. A banquet will probably follow the parade.

OKLAHOMA.

Something of Its Wonderful Growth in a Few Years—Its Great Natural Resources.

[Enquirer.]

Colonel Amos Green, of Oklahoma City, Ok. T., familiar to many people in several States, was at the Grand Wednesday on his way to his wife's old homestead in Mason County, Kentucky, near Dover. Colonel Green is a native of Virginia, but came to Kentucky when a young man, and was admitted to the Covington bar with John G. Carlisle. He married Miss Bledsoe, of Mason County, a relative of the distinguished United States Senator Jesse Bledsoe. Colonel Green lived in Louisville for a time, and was extensively engaged in mining enterprises. He was President of the company that established the Kansas City Times. Of late years he has been a resident of Oklahoma City, where he and his son are engaged in the practice of law. Of that coming Southwest country he said:

"Oklahoma Territory has now a population of 300,000 whites and only 8,000 Indians, and an area of 45,000 square miles, over 5,000 more square miles than the State of Ohio. It is a very fertile and resourceful land. Many of its acres will yield over 30 bushels of wheat this season, and there will be an average yield of 18 or 20 bushels throughout. The corn crop promises a magnificent yield, and the cotton prospect is splendid."

Oklahoma City has a population of 15,000, electric lights, fine waterworks, three railroad lines, and a fourth line will be completed by October, giving us a one-mile nearer communication with St. Louis. We are on the North Canadian river, which gives us a bountiful water supply, in a glorious climate, where the rainfall from January to September is 32 inches, all sufficient for the maturity of crops, fruits and vegetables. It is getting to be a great fruit producing region, and the coal resources in the Indian Terri-

tory are unsurpassed, with manganese and iron ore, all in juxtaposition, as at Birmingham, Ala.

"By an act of this Congress 4,000,000 acres of land in Oklahoma Territory will be opened to purchase and settlement at \$1.50 an acre, 160 acres being reserved for every Indian. Thus \$6,000,000 will go to 2,000 Indians, and they will have homesteads of 160 acres reserved besides, which can not be sold. The Indians will all be rich. A vast area in the Indian Territory is to be thrown open likewise to purchase and white settlement, one-fourth of the domain each year. There are now 40,000 whites in the Indian Territory, and within five years the two territories will have a white population of 500,000. We are working to have Oklahoma and the Indian Territory erected into a grand State, and this will be effected in the course of another national Administration. That would present to the constellation of States a commonwealth with an area of 68,000 square miles, one of the most resourceful and inviting regions on earth."

The new Democratic Prison Commissioners will take charge of the penitentiaries August 1st.

DURING the recent visit of Mrs. P. T. Vaughn, of Dayton, to relatives in this county, a pet dog belonging to her died, apparently of a broken heart. The canine was a great pet of the family and when she left the dog refused to eat and gradually pined away, dying, to all appearances, from grief.

COLONEL V. H. Perkins, better known as "Bud," formerly of this city, has been nominated by the Democrats of Chicago for County Commissioner, a place which pays a salary of \$7,000 per year, and his prospects for election are said to be excellent. He has been a resident of that city only four years, has been twice elected City Supervisor, made the race for Congress and is now the nominee for an office that pays a salary of \$2,000 more than a Congressman receives.

Portugal Is Worried.

Lisbon, Portugal, July 22.—Owing to the suspension of the constitution in Spain the Portuguese government has ordered reinforcements of troops to be dispatched to the frontier, fearing Spanish uprisings and the entry of revolutionists into Portuguese territory, as has been the case in the past.

PITHY POINTS.

It looks like the Administration was bent on making a "hot house" plant out of General Lee.

So long as saloons are allowed to make men lazy, trifling and vicious, the whipping post is a matter of necessity.

There'll be enough gold, pure and unadulterated, for the Democrats to contend with in the Congressional race.

It looks like there ought to be some Democrat found in the district able to beat the Lewis County crowd, headed or tailed with a renegade from the Democratic party.

Who might be found so foolish as to affirm that a man who indulged in stealing his neighbor's chickens or honey or vegetables had any claim above that offered by a whipping post.

There wouldn't be one chicken stolen where now there are whole broods taken, were the thieves certain they would be treated to the refreshment offered by a whipping post.

The things that people see are inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look out at the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a disease spot, and the disease will not stay. A man lives on rich pure blood, and the disease dies on it.

Dr. Pierce's Golden Medical Discovery makes people, rich blood. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.
